VISERA ELITE II

CH-S200-XZ-EA Autoclavable Camera Head

- 3CMOS Sensor: Sufficient covering of color gamut and enrich color reproducibility in Full HD is achieved.
- IR Observation: Capable of IR observation in addition of white light observation which can be switched by remote button.
- Small compact designs and light weight : Realized by compact image unit. Offers an easy fit in the hand and maneuverability.
- 2 times optical zoom: Magnified observation without image quality deterioration.
- Fiber Mode: By setting the fiber mode on the touch panel, moiré effect caused by the combination of camera head and flexible or semirigid scope can be prevented.

Specifications

Size	Camera head dimensions (unit: mm)	
	Camera head weight	280 g
	Cable	ø 6.8 mm × 3.04 m
Observation	Pickup system	CMOS image sensor (3×)
	Magnification ratio	Focal length $f = 15.9$ to 31.3 mm
NBI Observation Mode*		Available
IR Telescopes Observation Mode*		Available
Electronic Shutter Function*		Available
Electronic Zoom Function*		Available
Cleaning/Disinfection/Sterilization	Cleaning/disinfection	Immersible in disinfectant solution
	Sterilization	Autoclavable/ETO/Sterrad
Classification (Electromedical Equipment)	Type of protection against electric shock	TYPE BF
	Degree of protection against explosion	The camera head should be kept away from flammable gases

Specifications, design, and accessories are subject to change without any notice or obligation on the part of the manufacturer.
